

FRONTIER

An incredible value for trail blazers and families alike, the Frontier now features the new 180™EZ binding for ultimate ease-of-use and comfort. The Frontier's lightweight and gender-specific design gives you the most efficient stride for packed trails while the Recreational crampon system gives you the bite you need for gentle, rolling terrain.

180EZ BINDING

The streamlined 180EZ binding features a simple, one-buckle tightening mechanism, coupled with an easy-to-use urethane heel strap for efficient, lightweight support. Patented Control Wings™ keep your heel aligned with the snowshoe for maximum control and precision.

MODEL	SIZE, WT/PR	USER WT
FRONTIER 21 W	8" x 21" / 3.5 lbs • 20 x 53 cm / 1.58 kg	80-150 lbs • 36-68 kg

FRONTIER 36	10" x 36" / 5.7 lbs • 25 x 91 cm / 2.58 kg	220-300 lbs • 100-136 kg

TRADITIONAL SERIES

From packed trails to deep powder, Tubbs' Traditional Series snowshoes offer the best versatility for your day on snow. Traditional Series snowshoes come in multiple lengths to offer balanced flotation matched to the user's weight, and the wide variety of designs appeal to everyone from casual trail walkers to ambitious alpinists.

By varying elements in our FACT platform – Flotation, Articulation, Control, Traction – we are able to tailor each of our Traditional Series snowshoes to equip a wide variety of customers.

1. FLOTATION
 DURABLE, 6000 SERIES ALUMINUM FRAMES ARE USED ON ALL TRADITIONAL SERIES SNOWSHOES TO ENSURE MAXIMUM IN-FIELD DEPENDABILITY, AND EVERY FRAME HAS A GENDER-SPECIFIC TAPERED TAIL TO OPTIMIZE MANEUVERABILITY AND COMFORT.

2. ARTICULATION
 THE R2 REVOLUTION RESPONSE PIVOT SYSTEM DELIVERS SHOCK-ABSORBING LATERAL FLEX FOR MAXIMUM PERFORMANCE ON OUR BACKCOUNTRY SNOWSHOES, WHILE THE ROTATING TOE CORD ON OUR DAY HIKING AND TRAIL WALKING MODELS SHEDS SNOW AND REDUCES FATIGUE FOR MAXIMUM COMFORT.

4. TRACTION
 WHETHER IT'S THE RAZOR-SHARP, 8-POINT ANACONDA™ CRAMPON ON THE MOUNTAINEER OR THE GENTLE RECREATIONAL CRAMPON ON THE KID'S STORM, TUBBS TAKES THE INTENDED USE INTO ACCOUNT WHEN DESIGNING EVERY TRACTION SYSTEM SO THAT YOU GET THE GRIP YOU NEED WHEN IT MATTERS.

3. CONTROL
 TUBBS' BINDING DESIGNS ARE CONSTANTLY EVOLVING TO IMPROVE STABILITY, CONTROL AND COMFORT. OUR BACKCOUNTRY SNOWSHOES USE THE DUAL-PULL STRAP DESIGN FOUND ON THE ACTIVEFIT™ AND REACT™ BINDINGS FOR ENHANCED PRECISION, WHILE OUR DAY HIKING AND TRAIL WALKING SNOWSHOES FEATURE THE NEW 180™ SERIES OF BINDINGS FOR MAXIMUM COMFORT AND EASE-OF-USE.
