Now it's easier to access the backcountry with the new Mountaineer. The tried and true ActiveFit™ binding and ActiveLift™ heel lift give you the go-anywhere, do-anything versatility you need to reach for the peaks or explore uncharted territory. The 8-point Anaconda™ crampon underfoot gives supreme traction for even the most extreme terrain. Durable, lightweight and comfortable, you can count on your gear to get you anywhere you want to go. Gender-specific designs accommodate the unique needs of men and women without compromising excellence.
